

\$UIC WHITE PAPER

1. Vision: The Utopia of Identity

Utopian Identity City is more than a digital platform; it is an Electronic Nation founded on excellence, art, and identity protection. The \$UIC (Utopian Identity Coin) is the only lifeblood admitted within this ecosystem.

2. Tokenomics: The Power of One Billion

Total supply is set at **1,000,000,000 (One Billion) \$UIC**.

- **51% - Founder's Reserve:** Held permanently to ensure the integrity of the vision and the political stability of the City. No hostile takeover is possible.
- **20% - Genesis Founders:** Allocated to early supporters (Platinum, Elite, Visionary).
- **15% - Ecosystem & Citizens:** Reserved for new resident bonuses and community growth.
- **10% - DEX Liquidity:** Dedicated to decentralized markets (Uniswap) to ensure \$UIC/Euro exchange.
- **4% - Partners & Development:** Strategic collaborations and technological innovation.

3. Genesis Protocol (The Investment)

Access to the City is granted through the acquisition of \$UIC under a **12-month Stability Pact**. In exchange for their trust, the Founder receives:

- **Loyalty Bonus:** Up to +50% extra coins.
- **Phygital Fragments:** Numbered physical objects (The Atom, The Seal, Naming Rights) that serve as titles of nobility and artworks.

4. Resident Citizenship

To democratize access without devaluing the elite, we have introduced the **Resident tier (€200)**. This allows anyone to own a stake in Utopia, receive a citizenship certificate, and participate in the City's life, creating a strong popular base.

5. Liquidity Guarantee

Upon expiration of the 12-month pact, tokens are fully unlocked. Liquidity is guaranteed by the secondary market (DEX) on the Polygon network, where the value of \$UIC will reflect the growth and rarity of the ecosystem.
